

And There You Glow

Microderm Abrasion Cream

All Skin Types

Microderm Abrasion is used in Spas to eliminate the top layer of the epidermis, bringing newer skin to the surface. It removes the old layer of skin by polishing or acting as an abrasive, to remove imperfections, clogged pores and fine lines. This process allows your facial moisturizer to penetrate deep into your epidermis layer. Microderm abrasion stimulates new cell growth which slows down when we get older which gives your skin a smoother, youthful rejuvenated glow.

Directions: Apply a pea size amount or more to the skin of the face and neck. Rub in rotational pattern. Rinse well and apply your moisturizer.

Keep away from eyes and mouth. The “new” skin should be protected from the sun and recommended sunscreen or avoidance of direct sunlight for a few days!

Ingredients: De-Ionized Water, Aluminum Silica, Glyceryl Monosteatate, Butyrospermum Parkii (Shea Butter), Persea Gratissima (Avocado) Oil, Vitis Vinifera (Grapeseed) Oil, Simmondsia Chinensis (Jojoba) Oil, Cannabis Sativa (Hemp) Seed Oil, Caprylic/Capric Triglycerides, Vegetable Glycerine, Stearic Acid, Tocopherol(Vitamin E), Cetyl Alcohol(Fatty Acid), Diazolidinyl Urea, Iodopropynyl Butylcarbamate, Disodium EDTA.
