

And There You Glow

Rejuvenating Moisturizer (F)

All Skin Types

This rejuvenating moisturizer includes an excess of 18% oils of Jojoba, Avocado and Grape seed, plus 2% Shea Butter, Vegetable Glycerine and Vitamin E. Smooth application without a tacky after-feel and an amazing hydrating effect. This moisturizer penetrates into the cellular matrix and gives your skin that lift that helps to reduce fine lines and wrinkles. Rejuvenating Moisturizer helps to boost the collagen and elastin that our bodies produce naturally. As you get older your body loses the ability to produce these protein fibres. It's extremely important to hydrate the skin externally with an effective non-comogenic moisturizer that has the anti-aging effect we all desire.

Directions: With the aid of a spatula (never use your fingers, this will contaminate the cream) use a dime size amount and apply evenly over your face and neck. Avoid the eye area. Gently smooth over the areas and allow it to dry before applying your make-up.
